Healthy Lunch Policy

'Building confidence to realise potential'

As part of the Social, Personal and Health Education (S.P.H.E) programme we encourage the children to become more aware of the need for healthy food in their lunch boxes to improve concentration, energy levels, dental hygiene and their overall general health. This policy aims:

- To promote the personal development and well being of the child.
- To promote the health of the child and provide a foundation for healthy living in all its aspects.
- To enable the child to appreciate the importance of good nutrition for growing and developing and staying healthy.
- To enable the child to experience a wide variety of healthy food in a supportive environment.

Lunch is an important meal for school going children. It should provide one third of their recommended daily allowance of nutrients without being high in fat, sugar or salt. It should also provide dietary fibre. In our school the children eat twice a day, before going out to play. Teachers will discuss with their class what pertains to healthy lunches at the beginning and throughout the school year.
